

Very easy to sell!

# Cupcakes - REALLY?

Cupcakes - REALLY

# Cupcakes - HOW??

We've had some very clever Cup families do this...so pay attention here.

If baking is up your alley, this might be the key. We had a family that spent about \$25 in supplies & committed to making 200 of those 'monster cupcakes'. A few hours in the kitchen baking these - well, more than a few, like all Saturday morning and inched into the early afternoon. Hey, some 'time to spend together' ahhh. Well, they took these Cupcakes to 'an' event and sold them for \$5. They took some to church, to work, then to school. in 3 days from Saturday night through Monday.....they brought in \$1000 and netted \$975. I'd say what a quick hit in \$\$\$. And with those being large enough to split with someone or even in 1/3's...not a bad/bad investment. I know if you brought 17 Large Cupcakes to my office for \$5 a piece..I'd buy 1 for each of my office folks.

Ideas where to take them? Your own High School! To Local businesses! Ask your parents to take them to work with them. Church! Set up a stand! Basketball, Baseball, Football Games. Take them to a local restaurant and consign them.

We say do this 3 or 4 times in the same vein as our other travelers have and you've just earned a ton of money quickly.

Don't discount this...it may seem odd but it really generates dollars quickly.
